2022-23

CERTIFICATE

CERTIFICATE

Certified that this project report “REVIVING EDUCATION” who carried out the project work under my supervision.

(PROF.PAWAN KUMAR PANDEY)

GUIDE

(PROF. HARISHANKAR GUPTA)

HEAD OF DEPARTMENT

Department Of Computer Science

Digvijay Nath PG College Civil Lines Gorakhpur

Affiliated To

DEEN DAYAL UPADHYAYA GORAKHPUR UNIVERSITY

Certificate of Completion

This Certificate is awarded to

Mr./Ms : *Utkarsh Sharma* S/o, D/o : *Mr. Sanjay Kumar Sharma*

On successful completion of the course : *Language of C and C++*

Enrol. Number : *202300765* of duration : *3 Months*

And has procured the grade : *'A'* Date of Issue : *10-June-2023*

At : *359/1, Ch. Chandermal Complex, Dharmveer Market, Main Mathura Road*
Near Seble Cinema, Badarpur, New Delhi - 110044

ACKNOWLEDGEMENT

ACKNOWLEDGEMENT

WE would like to express my special thanks of gratitude to our project guide **Prof. Pawan Kumar Pandey** Sir who gave us the golden opportunity to do this wonderful project on the topic REVIVING CULTURE, which also helped me in doing a lot of research and i came to know about so many new things I am really thankful to them.

Secondly I would also like to thank my parents and friends who helped me a lot in finalizing this project within the limited time frame.

ABSTRACT

ABSTRACT

The "Reviving Education" project endeavors to shed light on the prevailing faults in our current education system while offering practical solutions to empower individuals to drive positive change. With a focus on personal growth, self-discovery, and spiritual enlightenment, the project aims to transform students into agents of change and advocates for educational reform.

The project website presents an insightful video course that delves into the profound teachings of the Bhagavad Gita. Through this course, students gain a deeper understanding of life's purpose, ethical principles, and the art of self-realization. As students explore the Bhagavad Gita, they are encouraged to reflect on their own journey, cultivate resilience, and embrace the spirit of transformation.

Beyond the study of ancient wisdom, the website provides a unique platform for students to contribute to the reformation of the education system. By creating an interactive space, students engage in discussions, share innovative ideas, and collectively envision a more inclusive and progressive educational landscape.

In addition to spiritual learning, the website features a curated selection of spiritual books, fostering a culture of reading and intellectual enrichment. The collection includes timeless classics and contemporary works that offer insights into various dimensions of spiritual growth, personal development, and mindfulness.

ACKNOWLEDGEMENT

ACKNOWLEDGEMENT

we Would like to thank to **Prof. Harishankar Gupta (HOD .BCA)** ,our project Guide **Prof. Pawan Sir (HOD.CS)** for providing this great opportunity ,to make this project ,a success ,and of a different category. My vision to address the flaws in our education system and offer a path of positive change would not have been possible without the support, dedication, and encouragement from our Teachers .

In building this project ,we went through a vast things ,to know and learn about ,a good amount of research ,as well as ,different view points of different students as well as teachers ,which helped us to understand this topic more seriously . During this time I faced many problems ,for which I reffered ,to my project guide ,and Department professors ,and to my better understanding they all guided me in the best possible way to provide me more clarity

To everyone who believed in the "Reviving Education" project and its vision, we offer our deepest thanks. Your contributions, big and small, have collectively shaped this endeavor into a meaningful platform for empowering change and self-discovery in education

With Humble Gratitude

ANMOL MISHRA

ARVIND NISHAD

UTTKARSH SHARMA

PROJECT OUTLINE

Project title

Reviving Education

Objective :

To bring out the loop holes as well as ,provide a perfect solution to the biggest problem in our education system

Language used :

FRONTEND:

1. Html
2. CSS
3. JAVASCRIPT

Backend

1. PHP

Database:

2. SQL

HTML

HTML, which stands for HyperText Markup Language, is the standard markup language used to create and structure the content of websites and web pages. It is the backbone of the World Wide Web, enabling web browsers to interpret and display the content of a webpage.

HTML uses a series of tags, represented by angle brackets (< >), to define the elements and structure of a webpage. These tags, along with their attributes, instruct web browsers on how to display the content and format of the page.

HTML was invented by Sir Tim Berners-Lee, a British computer scientist, while working at CERN (the European Organization for Nuclear Research) in 1989. Berners-Lee's goal was to create a system to facilitate the sharing and retrieval of information among researchers. He proposed the concept of hypertext and developed the first version of HTML to structure and link documents.

An HTML document starts with the **<html>** tag, which serves as the root element. It is followed by the **<head>** and **<body>** tags. The **<head>** section contains meta-information about the document, such as the title, character encoding, and links to external resources.

The actual content of the page is placed within the **<body>** section.

HTML elements are represented by tags. Tags are usually written in pairs, with an opening tag and a closing tag. The opening tag contains the element's name, and the closing tag is the same but with a forward slash before the element name, like **<element>** and **</element>**.

HTML is just one part of building a complete website. To make web pages visually appealing and interactive, HTML is often combined with CSS (Cascading Style Sheets) for styling and JavaScript for interactivity.

Learning HTML is a fundamental step for anyone interested in web development, as it forms the basis for creating web pages and understanding the structure of the web.

CSS – cascading style sheet

CSS, which stands for Cascading Style Sheets, is a style sheet language used to control the presentation and layout of HTML documents. It enables web developers to apply styles, such as colors, fonts, spacing, and positioning, to HTML elements, making web pages visually appealing and consistent across different devices and screen sizes.

Before CSS, web pages were styled using HTML attributes and font tags, which made it challenging to maintain consistent and organized styles across a website. To address this, several proposals for style sheets were made in the early 1990s. Notable examples include the "TSS" (Text Style Sheets) proposal by Håkon Wium Lie and the "SSP" (Structured Style Sheets Proposal) by Bert Bos. These proposals laid the foundation for what would become CSS.

The first official version of CSS, known as CSS Level 1, was introduced by the W3C (World Wide Web Consortium) in December 1996. CSS Level 1 provided basic styling capabilities, including font styles, colors, margins, and positioning. It allowed developers to separate the content of a web page from its presentation, promoting cleaner and more maintainable code.

CSS continues to evolve to meet the demands of modern web development. It plays a crucial role in creating visually appealing, responsive, and user-friendly web pages. CSS, along with HTML and JavaScript, forms the core technologies used to build websites and web applications. Web developers rely on CSS to create stunning and consistent designs that enhance the user experience and make the web a more engaging and visually impressive place.

JAVASCRIPT

JavaScript is a versatile and powerful programming language used primarily for front-end web development, but it is also capable of server-side development and more. It was created by Brendan Eich at Netscape in just 10 days in May 1995, and it has since become one of the most widely used programming languages in the world.

1. **Client-Side Scripting:** JavaScript is primarily known for its role in client-side web development. It is used to add interactivity, dynamic content, and functionality to web pages. With JavaScript, you can create pop-up alerts, handle form submissions, manipulate HTML and CSS, create animations, and much more.
2. **Versatility:** Beyond web development, JavaScript has evolved to become a versatile language that can be used for server-side development (e.g., with Node.js), desktop applications, mobile app development, game development, and even IoT (Internet of Things) applications.
3. **Interactivity and Event Handling:** JavaScript is event-driven, meaning it responds to user actions and events on web pages. You can attach event handlers to various HTML elements, such as buttons, links, and form fields, to perform actions when events like clicks, input changes, or page loads occur.
4. **Syntax and Object-Oriented Nature:** JavaScript has a C-style syntax and supports object-oriented programming. It uses prototypes rather than traditional class-based inheritance to create objects and define behaviors.
5. **Dynamic Typing:** JavaScript is dynamically typed, which means variables can hold values of any type, and their types can change at runtime. This flexibility allows for easier development but requires careful handling of data types.
6. **Libraries and Frameworks:** A rich ecosystem of libraries and frameworks has been developed around JavaScript, such as React, Angular, Vue.js, Express.js, and many others. These tools make it easier to build complex web applications and streamline development.

7. **Asynchronous Programming:** JavaScript supports asynchronous programming through callbacks, promises, and `async/await`. Asynchronous code execution is vital for handling time-consuming tasks without blocking the main thread, making it essential for building responsive web applications.
8. **JSON:** JavaScript Object Notation (JSON) is a data interchange format inspired by JavaScript object syntax. JSON is widely used for data exchange between servers and web clients and has become a standard data format.
9. **ES6 (ECMAScript 6) and Beyond:** ECMAScript is the official standard for JavaScript. ES6, also known as ECMAScript 2015, introduced many new features and improvements to the language. Subsequent versions, such as ES7 (2016), ES8 (2017), and ES9 (2018), have continued to add more capabilities.

JavaScript's popularity and widespread adoption have made it an essential skill for web developers. It has evolved from a simple scripting language to a powerful tool capable of building complex web applications and driving innovation in web development. With the continued growth of web technologies, JavaScript's role in shaping the future of the web remains significant.

BACKEND

PHP

PHP, which stands for Hypertext Preprocessor, is a server-side scripting language designed for web development. It was created by Rasmus Lerdorf in 1994 and has since become one of the most popular languages for building dynamic and interactive websites.

Here are some key aspects and features of PHP:

1. **Server-Side Scripting:** PHP is a server-side scripting language, meaning it is executed on the web server before the web page is sent to the user's browser. It is used to generate dynamic content, interact with databases, handle form submissions, and perform various server-side tasks.
2. **Open Source:** PHP is an open-source language, which means it is freely available to use and modify. The open-source nature of PHP has contributed to its widespread adoption and a large community of developers.
3. **Embedded in HTML:** PHP code is embedded directly into HTML files using special tags, typically `<?php ... ?>` or `<?= ... ?>`. This allows developers to mix PHP code seamlessly with HTML, making it easy to generate dynamic content and perform server-side operations within the same file.
4. **Extensive Functionality:** PHP comes with a wide range of built-in functions for handling various tasks, such as manipulating strings, working with arrays, interacting with databases, handling file uploads, and performing mathematical calculations.
5. **Database Support:** PHP has excellent database support and can work with various databases, including MySQL, PostgreSQL, SQLite, Oracle, and more. It allows developers to interact with databases to store, retrieve, and manipulate data used in web applications.
6. **Frameworks and CMS:** PHP has a rich ecosystem of frameworks and content management systems (CMS) that make web development faster and more efficient. Popular PHP frameworks include Laravel, Symfony, CodeIgniter, and Yii, while popular CMS options include WordPress, Drupal, and Joomla.

7. **Platform Independence:** PHP is platform-independent, meaning it can run on various operating systems, including Windows, macOS, Linux, and more. This makes it a flexible choice for building web applications that can be deployed on different server environments.
8. **Community and Support:** PHP has a vast and active community of developers who contribute to its growth and development. The PHP community offers extensive documentation, tutorials, forums, and online resources, making it easier for developers to learn and troubleshoot issues.
9. **Evolution and Versions:** PHP has undergone significant improvements over the years, with each major version introducing new features and performance enhancements.
As of my last update in September 2021, PHP 8 was the latest stable version, featuring Just-In-Time (JIT) compilation, union types, named arguments, and other improvements.

PHP remains a dominant force in web development, particularly for server-side scripting tasks. Its ease of use, flexibility, and extensive capabilities have made it a popular choice for building websites, web applications, and web services. As web technologies continue to evolve, PHP continues to adapt and play a vital role in powering the modern web.

DATABASE

SQL-STRUCTURED QUERY LANGUAGE

SQL (Structured Query Language) is a standard language used to manage and manipulate relational databases. SQL provides a set of commands that allow users to perform various operations, such as creating, modifying, and querying databases. Relational databases are the most commonly used type of database, and SQL is the backbone of their functionality.

1. **Relational Databases:** SQL databases are based on the relational database model, which organizes data into tables with rows and columns. Each row represents a record, and each column represents a specific data attribute.
2. **Data Integrity:** SQL databases enforce data integrity through constraints, such as primary keys, foreign keys, unique constraints, and check constraints. These constraints ensure that data remains consistent and accurate within the database.
3. **Data Manipulation:** SQL allows users to perform various data manipulation operations, such as inserting new records into a table, updating existing records, and deleting records.
4. **Data Querying:** SQL is primarily known for its powerful querying capabilities. Users can write SQL queries to retrieve specific data from one or more tables based on conditions and filters.
5. **Data Definition:** SQL also includes commands for defining the database structure, such as creating tables, defining relationships between tables, and setting up indexes for efficient data retrieval.
6. **JOIN Operations:** One of the essential features of SQL is the ability to perform JOIN operations, allowing users to combine data from multiple tables based on common columns.
7. **Aggregation and Grouping:** SQL supports aggregation functions like SUM, COUNT, AVG, MIN, and MAX, allowing users to perform calculations on groups of data.
8. **Transactions:** SQL databases support transactions, which allow users to group multiple operations into a single unit of work. Transactions ensure that all operations either succeed together or fail together, maintaining data consistency.

9. Popular SQL Databases: There are several popular SQL database management systems (DBMS) available, including MySQL, PostgreSQL, Microsoft SQL Server, Oracle Database, and SQLite. Each of these DBMS has its own strengths and features, but they all use SQL as the language for interacting with the database.

SQL databases are widely used in various applications, including web development, enterprise systems, data analysis, and more. They offer a robust and reliable way to store and manage structured data efficiently. Understanding SQL and its querying capabilities is essential for anyone working with relational databases and handling data-driven applications.

<div class="lok"></div>

<div class="aboutlok">LOKANATH SWAMI MAHARAJA

Lokanath Swami is a senior disciple of Srila Prabhupada.

In his tenure as Padayatra Minister, he expanded his service worldwide. Then, as the Minister for Śrīla

Prabhupāda's Centennial, Maharaja coordinated a global, four-year campaign that culminated in ISKCON's

worldwide, grand centennial celebrations of 1996.

Lokanath Swami provided the inspiration to begin ISKCON's yearly Vraja-maṇḍala parikrama in 1987, and currently

serves as chairman of the parikrama management board. He is also credited with having developed

Navadvīpa-maṇḍala parikrama.

Known for his inspiring lectures and melodious kirtanas, Lokanath Swami attends hundreds of ISKCON festivals

worldwide. Lokanath Swami, an author of ??? books, not only promotes kirtan, but also personally ensures that

devotees improve the quality of their chanting of the holy names in the daily Zoom Temple. Maharaja's 'High

thinking, simple thinking' lifestyle makes him one of the prominent leaders in India.</div>

<hr>

<div class="sp"></div>

<div>

British colonial rule, finally going to university to read chemistry. At university, he became a supporter of

Gandhi's movement to gain independence for India. As a measure of this support, he would only dress in white

hand loom cloth, woven in India and furthermore, he declined to accept his degree from the university.

Abhay married and went into business as a small pharmaceutical firm to support his wife and family. He met his

spiritual master, Srila Bhaktisiddhanta Saraswati Goswami, for the first time in Calcutta in 1922.

Bhaktisiddhanta Saraswati, took a liking to Abhay and told him to devote his life to teaching Vedic Knowledge;

more specifically to preach Lord Caitanya's message to the English speaking world. Although, Abhay accepted,

Srila Bhaktisiddhanta within his heart as his spiritual master, it was not until 1932 that he became initiated.

He then received both harinama and mantra diksa at his initiation.

In 1936 Srila Prabhupada wrote his spiritual master requesting if there was any particular service that he could

render. Srila Prabhupada received a reply to that letter containing the same instruction the he had received in

1922: Preach Krishna consciousness to the English speaking world's. His spiritual master passed away from this

world two weeks later; thus leaving these final instructions engraved on Srila Prabhupada's heart. These

instructions were to form the focus of Srila Prabhupada's life.

Srila Prabhupada wrote a commentary on the Bhagavad-gita and assisted the Gaudiya Matha in its work. In 1944,

during the Second World War, when paper was scarce and people had little money to spend, Srila Prabhupada began

a magazine called Back to Godhead. Single-handedly, he would write, edit, oversee the layout, proof-read and

sell the copies himself. This magazine is still being published today.

In 1950 Srila Prabhupada adopted the vanaprastha (retired) life; thus retiring from home and family life, in

order to devote more time to his studies. In 1953 he received the title Bhaktivedanta from his Godbrothers. He

travelled to Vrindavana, where he lived very humbly at the Radha-Damodara temple. He spent several years there

studying the scriptures and writing.

In 1959 he took sannyasa, the renounced order of life. It was then, while staying at Radha-Damodara temple that

he started on his masterpiece: translation and commentary of the Srimad-Bhagavatam in English. He also wrote

Easy Journey to Other Planets. Within a few years, he had written three volumes of English translation and

commentary for the first canto of Srimad-Bhagavatam. Once again, single handedly, he bought the paper and

gathered funds, to print the books. He sold the books himself and through agents in the larger Indian

cities.

He now felt ready to carry out his spiritual master's orders and decided to start by taking the message of

Krishna consciousness to America, convinced that other countries would follow suit. Obtaining free passage on a

freight ship, called the Jaladuta he finally arrived in New York in 1965. He was 69 and practically penniless.

All he possessed was a few copies of the Srimad-Bhagavatam and a few hundred rupees.

He had had a very difficult crossing, suffering two heart attacks and once arrived in New York he didn't know

which way to turn. After a difficult six months, preaching here and there, his few followers rented a storefront

and apartment in Manhattan. Here, he would regularly give lectures, kirtana and distribute prasadam. People from

all walks of life, including hippies, were drawn here; in search of that missing element from their lives and

many became part of 'Swamiji's' following.

As people became more serious, Srila Prabhupada's followers used to hold regular kirtanas in the parks. The

lectures and Sunday feast days became renowned. His young followers eventually took initiation from Srila

Prabhupada, promising to follow the regulative principles and chant 16 rounds of the Hare Krishna mantra daily.

He also reinstated the Back to Godhead magazine.

In July 1966, Srila Prabhupada established the International Society for Krishna Consciousness 'ISKCON.

His aim was to use the society to promote Krishna Consciousness throughout the world. In 1967, he visited San

Francisco and started an ISKCON society there. He then sent his disciples all over the world to spread Caitanya

Mahaprabhu's message and open new centres in Montreal, Boston, London, Berlin, and other cities in North

America, India, and Europe. In India, three magnificent temples were initially planned: Vrindavana, the Krishna

Balaram temple with all its ancillary faculties; Bombay, a temple with an educational and cultural centre; and

in Mayapur, a huge temple with a Vedic planetarium.

Srila Prabhupada produced all of his books bar the three written in India within the next eleven years. Srila

Prabhupada slept little and would spend the early morning hours writing. He would write almost daily between

1:30 and 4:30 a.m. He dictated his text, which his disciples then typed and edited. Srila Prabhupada would

translate the original texts from Sanskrit or Bengali, word by word, and gave a complete commentary.

His works include Bhagavad-gita As It Is, the multi-volume Srimad-Bhagavatam, the multivolume

Caitanya-caritamrta, The Nectar of Devotion, Krsna: The Supreme Personality of Godhead, Teachings of Lord

Caitanya, Teachings of Lord Kapila, Teachings of Queen Kunti, Sri Isopanisad, The Nectar of Instruction, and

dozens of small books. His writings have been translated into over fifty languages. The Bhaktivedanta Book

Trust, established in 1972 to publish the works of His Divine Grace, has thus become the world's largest

publisher of books in the field of Indian religion and philosophy.

Despite his heavy literary schedule, Srila Prabhupada did not let his writing stand in the way of his preaching.

In just twelve years, despite his advanced age, he circled the globe fourteen times on lecture tours that took

him to six continents. His days were filled with writing, teaching his followers and the public, and with

guiding his growing society, until the day he departed from this world. Before departing from this world Srila

Prabhupada gave many instructions to his disciples to follow in his footsteps and to continue the preaching and

spreading of Krishna Consciousness all over the world.

He departed this world on November 14 1977.

In the short time he spent in the west, he preached continuously, established 108 temples, wrote more than sixty

volumes of transcendental literature, initiated five thousand disciples, founded the Bhaktivedanta Book Trust,

began a scientific academy (the Bhaktivedanta Institute) and other trusts related to ISKCON.

Srila Prabhupada was an extraordinary author, teacher, and saint. He managed to spread Krishna Consciousness all

over the world, through his writing and preaching. His writings comprise of many volumes and are the basis of

Krishna consciousness not only for his disciples but for his grand-disciples, affiliated members of the

disciplic succession, and for the public at large.

His life history from his earliest days to his passing away in 1977 is vividly described in his authorised

biography, the Srila Prabhupada Lilamrta by Satsvarupa Goswami.

<div class="courseintro">

 Welcome to the Ultimate Journey: The Complete Bhagavad Gita Course!

Discover the Eternal Wisdom of the Bhagavad Gita: Unleash Your Inner Potential with
ISKCON's Ultimate Course!

Are you searching for profound meaning, purpose, and guidance in life? Look no
further! Welcome to the

enlightening journey of the Bhagavad Gita, a timeless scripture that resonates with the
hearts of the wise and

the curious alike.

 Ignite Your Spirituality:

Step into the profound world of spirituality with ISKCON's Complete Bhagavad Gita
Course. Delve deep into the

sacred verses and uncover the essence of life, existence, and the universe. This course
empowers you to embrace

spirituality in a way that is relevant, relatable, and transformative.

 Ancient Wisdom, Modern Relevance:

The Bhagavad Gita is not just an ancient text but a treasure trove of wisdom that
transcends time. Our expert

instructors have brilliantly curated the course to present the Gita's timeless teachings in a modern context,

allowing you to seamlessly apply its principles to your everyday life, career, relationships, and personal

growth.

Unlock Your Inner Potential:

Through interactive lessons, thought-provoking discussions, and practical exercises, this course will help you

uncover your true potential. Learn the art of mindfulness, resilience, and inner peace as you navigate life's

challenges with newfound strength and clarity.

All-Inclusive for the Youth:

Calling all young minds! Whether you are a student, a professional, or simply seeking purpose, the Bhagavad Gita

has something extraordinary to offer you. Embrace a journey of self-discovery that aligns with your modern

lifestyle, making spirituality a dynamic and relevant aspect of your life.

Comprehensive Course Structure:

Our holistic curriculum is meticulously designed to cater to both beginners and those familiar with the Gita.

Each module is engaging and easily digestible, featuring captivating visuals, audio clips, and interactive

quizzes that make learning an absolute joy.

Join a Vibrant Community:

Connect with like-minded individuals from around the world, forming lifelong bonds with fellow seekers on the

path of spiritual awakening. Experience the warmth and guidance of ISKCON's expert mentors, who will be there to

support you throughout your journey.

 Embrace the Essence of Bhagavad Gita Today:

Seize this golden opportunity to embark on a life-changing adventure. Register now for the Complete Bhagavad

Gita Course by ISKCON and set forth on a path of spiritual exploration, empowerment, and fulfillment!

 Don't wait! Let the timeless wisdom of the Bhagavad Gita lead you towards a life of purpose, joy, and

inner

harmony. Reserve your spot now and witness the magic unfold!

<p class="coursewhy">Why this Course?</p>

<div>

The impact of modern education and certain philosophical trends on religious

beliefs

varies

among individuals

and cultures. While education and philosophical advancements have contributed to the advancement of

science,

critical thinking, and intellectual exploration, some argue that they have also led to a decline in

religious

adherence and an increase in atheism. Here are some reasons why some people believe that modern

education

and

philosophical ideas may have contributed to a decline in religious beliefs:

Scientific Advancements: Modern education emphasizes scientific discoveries and

evidence-based

reasoning. As

scientific knowledge expands, some individuals may find it difficult to reconcile traditional

religious

beliefs

with scientific explanations, leading to a shift towards atheism.

Secularization: Modern education often promotes secularism, emphasizing the

separation

of

religious institutions

from the state and public life. This can lead to a decrease in religious influence in various

aspects of

society.

Thinking: Education encourages critical thinking and questioning of beliefs,

including

religious ones.

As individuals learn to analyze information critically, they may question the validity of religious

claims

and

opt for atheism or agnosticism.

Pluralism: Modern philosophy emphasizes the acceptance of diverse beliefs and

viewpoints,

leading

some individuals to adopt a relativistic or pluralistic approach to religion. They may view all

religious

beliefs as equally valid or choose not to adhere to any particular religious tradition.

Materialism and Consumerism: With the rise of modern consumerist culture, material

pursuits

and

individual

success are often prioritized over spiritual or religious values. This focus on material wealth and

success

may

contribute to a decline in interest in religious practices.

and Cultural Critiques: Modern education and philosophy have led to critical

analyses

of

religious

history and practices, exposing instances of intolerance, discrimination, and violence in the name

of

religion.

Such critiques can lead individuals to distance themselves from religious institutions.

Religious Fundamentalism: Paradoxically, some individuals, when exposed to secular

education or

ideas that

challenge their religious beliefs, may adopt a more rigid, fundamentalist stance.

This, in turn, can

lead to

polarization and further alienation from those with differing beliefs.

It's important to note that while modern education and philosophical ideas may have contributed to

changes

in

religious beliefs, many people continue to find spiritual fulfillment and God-consciousness through

education

and philosophical exploration. For some, education and critical thinking can strengthen their faith

and

deepen

their understanding of spirituality.

Ultimately, religious beliefs are complex and influenced by numerous factors, including cultural

upbringing,

personal experiences, exposure to diverse ideas, and individual disposition. As societies progress,

it

is

essential to foster open dialogues that respect diverse beliefs and encourage a deeper understanding

of

different worldviews.

<div>

HG Amogh Lila Prabhu is an Indian saint, social worker and motivational speaker. He was born in Lucknow, Uttar Pradesh on 1 July 1980 to a religious Punjabi family.

Currently, he is a **vice president of Dwarka ISKCON temple**. ISKCON is an

organization that propagates

Sanatana Dharma the world over, it is founded by Swami A.C. Bhaktivedanta Swami Prabhupada Ji.

HG Amogh Prabhu Ji, he is famous for his wonderful speeches on social media platforms. He has a

charming personality that captures the eyeballs.

After the completion of 12th standard which was in 2000, Amogh Lila ran away from home. However,

he came

back after four months and completed his further studies. He completed his graduation in engineering

in

computer science in 2004. And further did a job as a software engineer in a US-based MNC.

He had reached the project manager post when he left the job

(2004-2010). And after that, in 2010, he became a forever Hare Krishna Brahmachari by joining

ISKCON, at

the age of 29.

## About US

### Why Reviving Education?

Reviving education is a revolution of this era, which aims to revive our lost spiritual education, in the name of it being considered backward or irrelevant in this industrial age.

### The Modern education system is a complete failure, as it

basically is making people, as well as the youth, move away from God consciousness to more specifically Krishna consciousness. Many scientists, philosophers and the foolish theory of Darwin early convince people about the non-existence of God and spirituality.

## AIM

This REVIVING EDUCATION mission or revolution is set up to make people aware of their glorious culture and history and to make them realize how they are losing a gem in the name of being practical and rational.

"Unfortunately, this spiritual education is completely absent from modern human civilization. No one understands his real self-interest, which lies with the spirit soul, not with the material body."

Sri Prabhupada  
Founder of the International Society for Krishna Consciousness

Reviving values Home About our inspiration Course

### LOKANATH SWAMI MAHARAJA

Lokanath Swami is a senior disciple of Sri Prabhupada. In his tenure as Padayatra Minister, he expanded his service worldwide. Then, as the Minister for Sri Prabhupada's Centennial, Maharaja coordinated a global, four-year campaign that culminated in ISKCON's worldwide, grand centennial celebrations of 1996.

Lokanath Swami provided the inspiration to begin ISKCON's yearly Vraja-mandala parikrama in 1987, and currently serves as chairman of the parikrama management board. He is also credited with having developed Navadvipa-mandala parikrama.

Known for his inspiring lectures and melodious kirtanas, Lokanath Swami attends hundreds of ISKCON festivals worldwide. Lokanath Swami, an author of 7777 books, not only promotes kirtan, but also personally ensures that devotees improve the quality of their chanting of the holy names in the daily Zoom Temple. Maharaja's 'high thinking, simple thinking' lifestyle makes him one of the prominent leaders in India.

British colonial rule, finally going to university to read chemistry. At university, he became a supporter of Gandhi's movement to gain independence for India. As a measure of this support, he would only dress in white hand-loom cloth, woven in India and furthermore, he declined to accept his degree from the university.

Abhay wanted and went into business as a small pharmaceutical firm to support his wife and family. He met his spiritual master, Sri Bhaktisiddhanta Saraswati (Goswami), for the first time in Calcutta in 1922.

Bhaktisiddhanta Saraswati took a liking to Abhay and told him to devote his life to teaching Vedic Knowledge; more specifically to preach Lord Caitanya's message to the English speaking world. Although, Abhay accepted, Sri Bhaktisiddhanta within his heart as his spiritual master. It was not until 1932 that he became initiated. He then received both harinama and mantra diksa at his initiation.

In 1926 Sri Prabhupada wrote his spiritual master requesting if there was any particular service that he could render. Sri Prabhupada received a reply to that letter containing the same instruction he had received in 1922. Preach Krishna consciousness to the English speaking world's. His spiritual master passed away from this world two weeks later, thus leaving these final instructions engraved on Sri Prabhupada's heart. These instructions were to form the focus of Sri Prabhupada's life.

Sri Prabhupada wrote a commentary on the Bhagavad-gita and assisted the Gaudiya Matha in its work. In 1944, during the Second World War, when paper was scarce and people had little money to spend, Sri Prabhupada began a magazine called Back to Godhead. Single-handedly, he would write, edit, oversee the layout, proof-read and sell the copies himself. This magazine is still being published today.

# The Complete Bhagavad Gita Course

## Welcome to the Ultimate Journey: The Complete Bhagavad Gita Course!

Discover the Eternal Wisdom of the Bhagavad Gita: Unleash Your Inner Potential with ISKCON's Ultimate Course!

Are you searching for profound meaning, purpose, and guidance in life? Look no further! Welcome to the enlightening journey of the Bhagavad Gita, a timeless scripture that resonates with the hearts of the wise and the curious alike.

**Ignite Your Spirituality:** Step into the profound world of spirituality with ISKCON's Complete Bhagavad Gita Course. Delve deep into the sacred verses and uncover the essence of life, existence, and the universe. This course empowers you to embrace spirituality in a way that is relevant, relatable, and transformative.

**Ancient Wisdom, Modern Relevance:** The Bhagavad Gita is not just an ancient text but a treasure trove of wisdom that transcends time. Our expert instructors have brilliantly curated the course to present the Gita's timeless teachings in a modern context, allowing you to seamlessly apply its principles to your everyday life, career, relationships, and personal growth.

**Unlock Your Inner Potential:** Through interactive lessons, thought-provoking discussions, and practical exercises, this course will help you uncover your true potential. Learn the art of mindfulness, resilience, and inner peace as you navigate life's challenges with newfound strength and clarity.

**All-Inclusive for the Youth:** Calling all young minds! Whether you are a student, a professional, or simply seeking purpose, the Bhagavad Gita has something extraordinary to offer you. Embrace a journey of self-discovery that aligns with your modern lifestyle, making spirituality a dynamic and relevant aspect of your life.

**Comprehensive Course Structure:** Our holistic curriculum is meticulously designed to cater to both beginners and those familiar with the Gita. Each module is engaging and easily digestible, featuring captivating visuals, audio clips, and interactive quizzes that make learning an absolute joy.

## Why this Course?

**The impact of modern education and certain philosophical trends on religious beliefs** varies among individuals and cultures. While education and philosophical advancements have contributed to the advancement of science, critical thinking, and intellectual exploration, some argue that they have also led to a decline in religious adherence and an increase in atheism. Here are some reasons why some people believe that modern education and philosophical ideas may have contributed to a decline in religious beliefs:

**Scientific Advancements:** Modern education emphasizes scientific discoveries and evidence-based reasoning. As scientific knowledge expands, some individuals may find it difficult to reconcile traditional religious beliefs with scientific explanations, leading to a shift towards atheism.

**Secularization:** Modern education often promotes secularism, emphasizing the separation of religious institutions from the state and public life. This can lead to a decrease in religious influence in various aspects of society.

**Thinking:** Education encourages critical thinking and questioning of beliefs, including religious ones. As individuals learn to analyze information critically, they may question the validity of religious claims and opt for atheism or agnosticism.

**Pluralism:** Modern philosophy emphasizes the acceptance of diverse beliefs and viewpoints, leading some individuals to adopt a relativistic or pluralistic approach to religion. They may view all religious beliefs as equally valid or choose not to adhere to any particular religious tradition.

**Materialism and Consumerism:** With the rise of modern consumerist culture, material pursuits and individual success are often prioritized over spiritual or religious values. This focus on material wealth and success may contribute to a decline in interest in religious practices.

**and Cultural Critiques:** Modern education and philosophy have led to critical analyses of religious history and practices, exposing instances of intolerance, discrimination, and violence in the name of religion. Such critiques can lead individuals to distance themselves from religious institutions.

**Religious Fundamentalism:** Paradoxically, some individuals, when exposed to secular education or ideas that challenge their religious beliefs, may adopt a more rigid, fundamentalist stance. This, in turn, can lead to polarization and further

## Course instructor

**HG Amogh Lila Prabhu** is an Indian saint, social worker and motivational speaker. He was born in Lucknow, Uttar Pradesh on 1 July 1980 to a religious Punjabi family.

Currently, he is a **vice president of Dwarka ISKCON temple**. ISKCON is an organization that propagates Sanatana Dharma the world over, it is founded by Swami A.C. Bhaktivedanta Swami Prabhupada Ji.

HG Amogh Prabhu Ji, he is famous for his wonderful speeches on social media platforms. He has a charming personality that captures the eyeballs.

**After the completion of 12th standard which was in 2000, Amogh Lila ran away from home. However, he came back after four months and completed his further studies. He completed his graduation in engineering in computer science in 2004. And further did a job as a software engineer in a US-based MNC.**

**He had reached the project manager post when he left the job (2004-2010). And after that, in 2010, he became a forever Hare Krishna Brahmachari by joining ISKCON, at the age of 29.**
